

Moab City Council Agenda Item
Meeting Date: August 27, 2019

Title: A Resolution adopting the 2019 Sustainability Action Plan

Disposition: Discussion and adoption

Staff Presenter: Rosemarie Russo

Attachment(s):

- Attachment 1: Proposed Resolution 45-2019

Recommended Motion:

I move to adopt Resolution 45- 2019 adopting the 2019 Sustainability Action Plan

Background/Summary:

The evidence is overwhelming that, despite the fact that Moab has an aspirational Sustainability Action Plan, the nation and global preparation for climate related impacts (i.e., extreme cold, increase in days over 105 degrees, increase in severity and duration of wildfires and extended droughts) is inadequate.

Moab has to build upon our long history of promoting sustainable practices through numerous resolutions, ordinances, plans, projects and internal policies as provide leadership to our community and others.

The 2019 Sustainability Action Plan outlines the goals, schedule, and strategies that will help put the community on a long- term sustainable path. Within this document are recommendations to augment existing goals, and metrics, with a special emphasis on energy use and sources of energy because how we acquire energy and how efficiently we use resources will determine, if Moab can achieve transformational change and protect the world-class environment we call home.
