TASKS OUTLINED AT THE JANUARY 2020 MEETING

WORK ON COLLABORATION AND COMMUNICATION FLOW BETWEEN THE BOARD AND CITY STAFF

- Take initiative to send information requests to city staff understanding that some requests will take time to fill (asking city staff to let us know when they need more time)

Participate in crafting and implementing a groundwater management plan

Participate in crafting and implementing groundwater monitoring

Participate in implementing surface water monitoring

Discuss term limits and come up with a suggestion to either have them or not (we have chair term limit of 2 years, do we want overall member term limits of say 2 or 3 terms?)

Revise the plan by 2021, perhaps using that revision process as our public outreach

Work for 2020
- Review and consider revisions to our mission statement
- Work through the plan – updating the state required data and determining what is missing in the plan and what sections need revisions
