To Whom It May Concern,

I am writing this letter to confirm that MeterWorks Inc. is the only distributor in Utah, that sales Neptune Meters. We sale to over 50 different cities and water districts in Utah. All of these cities and districts buy from us as a Sole Source. We just make sure we take care of the customers and support them with anything they need. We never charge for our services to come out and help trouble shoot, set up software (whether for a new version or a computer crash), training for new personnel, or any other reason we would need to come to the city, to make sure the Neptune System is running smoothly. I hope this answers any questions you might have, but if you have any more questions, please feel free to contact me.

Thanks,

Ken Sheffield
