

Moab City Council Agenda Item

Meeting Date: July 27, 2021

Title: Grantwell Partnership Proposal

Presenter: Ben Billingsley

Attachment(s):

- Grantwell organization overview
- Letter of Intent

Recommended Motion: I move to approve the partnership between the City of Moab and Grantwell, and authorize the execution of the letter of intent.

Background/Summary:

Following the adoption of the RAP tax, staff was approached by Grantwell, a not-for-profit student ran organization made up of BYU Public Administration students. This organization has requested to recommend the process for how the city administers RAP proceeds.

A group of students will be assigned to this project and will research various methods in which other entities administer RAP funds. In December of 2021, the students assigned to the project will deliver a formal recommendation to the City Council on the following:

- The makeup and structure of the committee.
- The application process for RAP tax applicants.
- The rating and ranking process for the applications.
- The process for the committee to recommend funding to the City Council.

By partnering with Grantwell, the city is not committing to adopt the recommendations, and these services will be provided at no cost.
