Title: Water Conservation Plan Update

Disposition: Vote

Staff Presenter: Mila Dunbar-Irwin

Attachment(s):
Water Conservation Plan

Recommended Motion:

1. I move to approve the Water Conservation Plan Update 2021.
2. I move to approve the addition to Section 6.6.2 as written in the attachment.

Background/Summary:

The State required Water Conservation Plan Update is due to be adopted before the end of 2021. The Council has seen this plan in draft form at previous meetings, and heard public comment at the last meeting.

Suggested changes have been incorporated into the document in the packet today. Once the Water Conservation Plan Update is adopted the plan will be sent to the State to satisfy our requirement and staff will begin work on the items outlined in the plan.

There is a proposed addition to Section 6.6.2 that deals with demand hardening. It is included as an attachment in the packet. If the Council votes to include this paragraph it will go into the final version of the plan.
