

Moab City Council Agenda Item

Meeting Date: January 25, 2022

Title: Consideration of Agreement between Moab Irrigation Company and the City of Moab: Rotary Park, Moab Irrigation Co. Water Feature

Presenter: Annie McVay, Parks, Recreation and Trails Director

Attachment(s): Agreement between Moab Irrigation Company and the City of Moab: Rotary Park, Moab Irrigation Co. Water Feature

Recommended Motion: I move to approve an Agreement between Moab Irrigation Company and the City of Moab: Rotary Park, Moab Irrigation Co. Water Feature.

Background/Summary: The Moab Irrigation Company approached the City last fall about the potential to install a water feature at Rotary Park. There is an existing drainage lined with rocks at the park that is attractively lined with rocks. The proposal is to provide a source of water to flow through the feature during the irrigation season. The water will be provided to the City free of charge and installation has been divided amongst the two parties. The goal is to have the needed connection and piping installed for the irrigation season. This feature will enhance both the riparian aspects of the park and the visitor experience.
